### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Smed in view of Haigh (4,202,663). Smed in view of Haigh, deceased et al (4,202,663). Smed teaches a drawer (20) made of thermoplastic (column 3, lines 56-59); the drawer including bottom and side walls/plates. For claim 1, Smed fails to teach a decorative design on the outside of the drawer. Haigh teaches that it is well known to add decorative designs on thermoplastic structures by adding a heat transfer layer thereon (see abstract for example). It would have been obvious to one having ordinary skill in the art at the time of the invention to modify the drawer of Smed by adding a decorative design thereon for aesthetic reasons. Note: process limitations are not given any weight in article claims.

For claims 3-6, Smed in view of Haigh fails to teach that the thermoplastic layer is mounted on/integrally formed with bottom and side plates. The examiner takes Official notice that furniture structures formed of plural layers are well known in the art. Therefore, it would have been obvious to one having ordinary skill in the art at the time of the invention to employ an inner layer of material as part of the drawer, the thermoplastic layer be mounted /integrally formed thereon, for strength purposes, durability, to achieve specific structural characteristics, etc.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Janet M. Wilkens whose telephone number is (571) 272-6869. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lanna Mai can be reached on (571) 272-6867. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
